1. Base paper for photographic supports, characterised in that it from a Papierkern exists, whose pulp between 5 and 100% contains recycling stuff.
2. Base paper according to claim 1, characterised in that the pulp except recycling stuff a photo cellulose and/or a standard cellulose contains.
3. Base paper according to claim 1 and 2, characterised in that the Papierkern neutral is glued.
4. Base paper according to claim 1 and 2, characterised in that the Papierkern is more acidic glued.
5. Base paper according to claim 1 and 2, characterised in that the Papierkern a reactive and non reactive sizing agent contains.
6. Base paper according to claim 1 to 5, characterised in that the Papierkern a white pigment contains.
7. Base paper according to claim 1 to 6, characterised in that the Papierkern is surface-glued.
8. Base paper according to claim 1 to 7, characterised in that the Papierkern by at least a side is provided with a synthetic resin layer.
9. Base paper according to claim 8, characterised in that the synthetic resin layer radiate-hardened is.
10. Base paper according to claim 8, characterised in that the synthetic resin layer one by extrusion coating coated layer is.
11. Base paper according to claim 1 to 7, characterised in that the synthetic resin layer from aqueous dispersion applied is.
12. Base paper according to claim 8 to 11, characterised in that the synthetic resin layer a white pigment contains.
